

Refined Backlog:

- As a user I want to create an account on the site so that be able to log in
- and save my information.
- As a user I want to navigate the site so that seeing restaurants on it and
- seeing their meals and make orders.
- As a user I want a payment methods page so that purchase any order
- As an administrator I want an admin side so that edit everything on the site.
- As a delivery I want to see order information so that knowing where I go with the order
